EDUCATION

Lovely Professional University (LPU)

Bachelor of Technology in Computer Science and Engineering

2024 – 2028

CGPA: X / 10

SKILLS

Languages: C++, JavaScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, Supabase, Firebase

Tools: Git, GitHub, Vercel, Docker, Postman

Concepts: Data Structures & Algorithms, OOP, Full Stack Development, AI Integration

PROJECTS

TOONVERSE-AI Live Demo | GitHub

- Developed an AI-powered educational platform that converts study material into interactive comic-style learning experiences.
- Built full-stack architecture using Next.js, Supabase, PostgreSQL and AI APIs.
- Implemented AI content generation, quiz analytics, progress tracking and personalized learning recommendations.
- Deployed production-ready application on Vercel with scalable backend services.

CreatorFind Live Demo | GitHub

- Built a SaaS platform for marketing agencies to discover YouTube creators and automate outreach campaigns.
- Implemented creator discovery, email extraction, campaign tracking and analytics dashboard.
- Integrated Google APIs and database systems for lead generation workflows.
- Delivered solution as a freelance project generating revenue and recurring maintenance support.

Personal Portfolio Live Demo | GitHub

- Designed and developed a modern interactive developer portfolio using Next.js and React.
- Implemented responsive UI, animations and optimized performance for enhanced user experience.

EXPERIENCE

Freelance Full Stack Developer

CreatorFind Platform for Marketing Agencies

2025 – Present

Remote

- Developed a creator outreach platform helping marketing agencies identify and connect with content creators.
- Generated 6,000+ project revenue with recurring maintenance and support.
- Managed deployment, feature updates and direct client communication.

CodSoft

Web Development Intern

2025

Remote

- Developed responsive web applications using modern frontend technologies.
- Worked on real-world projects involving HTML, CSS, JavaScript and React.

ACHIEVEMENTS

- Solved 100+ Data Structures and Algorithms problems on LeetCode.
- Built multiple AI-powered and full-stack applications from concept to deployment.
- Generated revenue through freelance software development projects.
- Maintained a CGPA of X/10 while actively developing real-world applications.
